

THE EVOLUTION OF CORPORATE CLIMATE ACTION: TOWARDS GREATER AMBITION AND URGENCY

Heidi Huusko
Senior Manager
United Nations Global Compact

**There is still time to secure the world that we
all want. We are at a critical juncture,
where every day climate change is moving
faster than we are, and where every half degree
makes a world of difference.**

– Lise Kingo, CEO & Executive Director

LEADERSHIP and AMBITION

“

”We must change almost everything in our current societies. The bigger your carbon footprint, the bigger your moral duty. The bigger your platform, the bigger your responsibility.

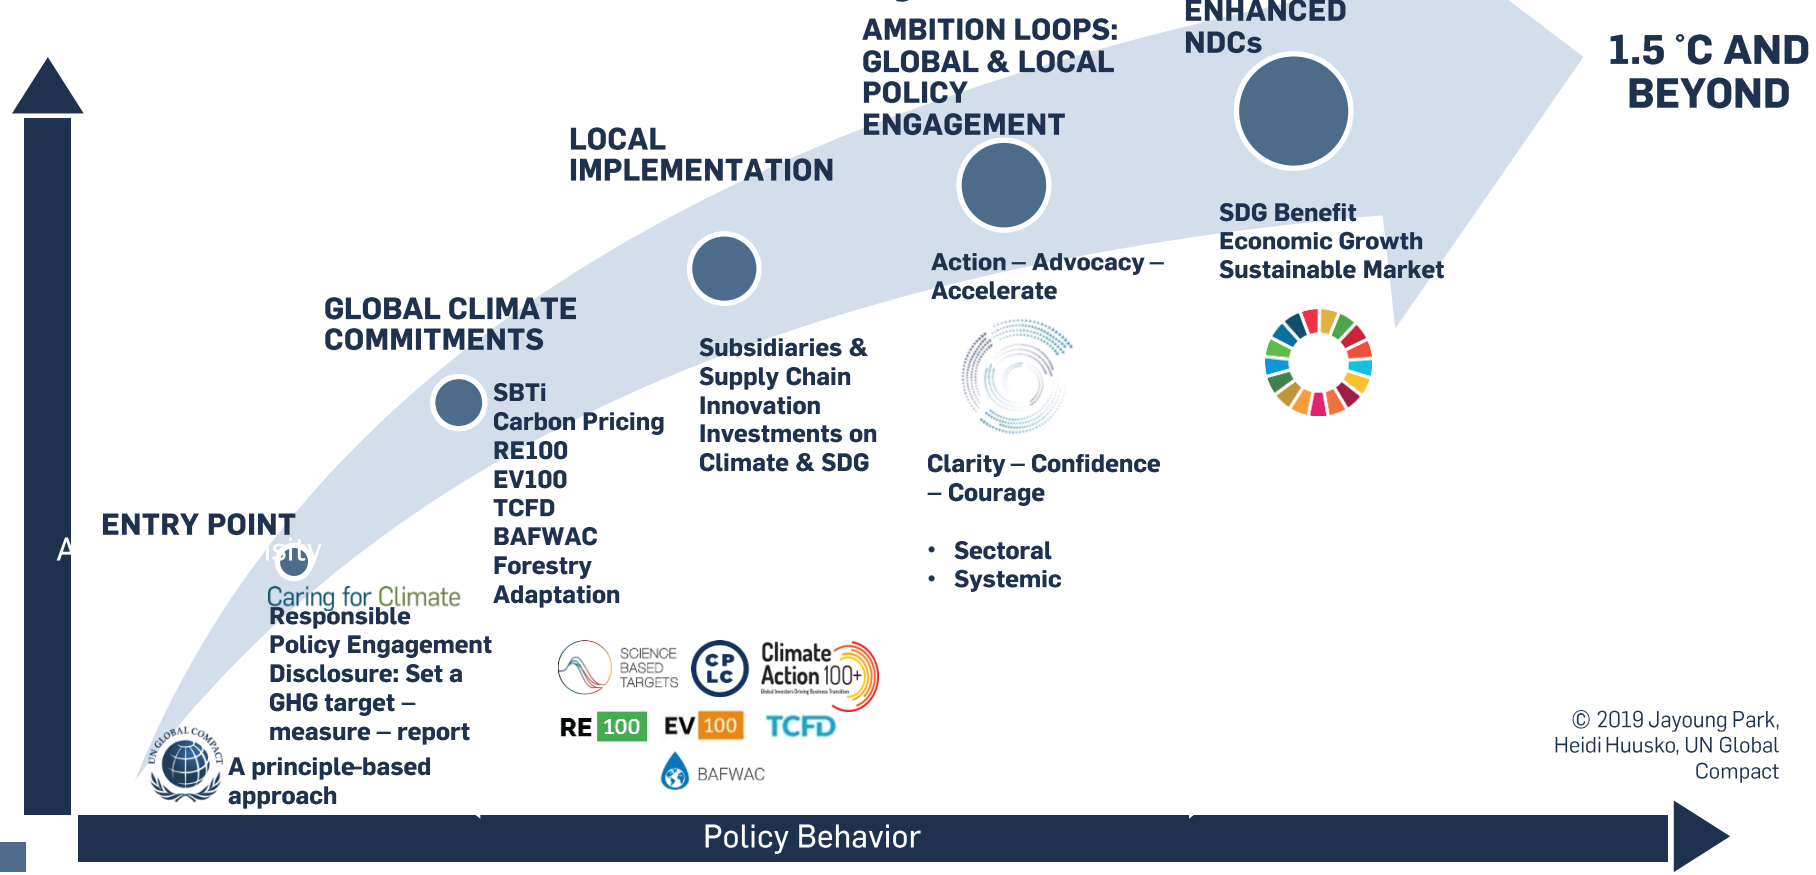

I want you to act as you would in a crisis. I want you to act as if our house is on fire. Because it is.”

Greta Thunberg, Climate Activist

THE AMBITION LOOP - *How business and government can fast track zero-carbon economic growth*

NOVEMBER 2018

The Business Leadership Criteria on Carbon Pricing

Carbon pricing is a good example of cross-sector ambition loop potential

In 2014, 150 companies reported that they used an internal carbon price.

By 2017, more than 1,300 companies were pricing carbon or planning to do so within the next two years.

To instill confidence in the pace and scale of change that governments are working toward, the price on carbon needs to be high enough to impact decision-making.
