

**Summer Institute on Ageing, June 3-7, 2024. The value of longitudinal data to study ageing.  
Venice International University**

Summer school: Multidisciplinary perspectives in the study of ageing based on longitudinal surveys					Workshop: Genetics and biomarkers in the study of ageing				
Monday 3		Tuesday 4		Wednesday 5		Thursday 6		Friday 7	
9:20-9:30	Welcome								
9:30-11:00	Long term care in Europe <b>Agar Brugiavini</b> Ca' Foscari University of Venice (IT)	9:30-11:00	Growing older in good wealth and health <b>Viola Angelini</b> University of Groningen (NL)	9:30-11:00	Flows, stocks and shocks – material conditions and well-being in old age <b>Michal Myck</b> Centre for Economic Analysis (PL)	9:30-10:30	Integrating large scale protein assays into longitudinal studies of ageing – Proteomics <b>Andrew Steptoe</b> University College London (UK)	9:30-10:30	Life-course socioeconomic factors and epigenetic biomarkers of ageing in the UK Household Longitudinal Study (Understanding Society) <b>Meena Kumari</b> University of Essex (UK)
						10:30-11:30	Prenatal sugar consumption and late-life human capital and health: Analyses based on postwar rationing and polygenic scores <b>Stephanie von Hinke</b> University of Bristol (UK)	10:30-11:30	Principles of inclusive biomarker research in population-based studies of cognitive aging and dementia <b>Jennifer Manly</b> Columbia University (US)
11:00-11:15	<i>Coffee break</i>	11:00-11:15	<i>Coffee break</i>	11:00-11:15	<i>Coffee break</i>	11:30-11:45	<i>Coffee break</i>	11:30-11:45	<i>Coffee break</i>
11:15-12:45	Longitudinal studies of aging; the good, the bad and the ugly! <b>Luigi Ferrucci</b> National Institute on Ageing (US)	11:15-12:45	Well-being indicators in population surveys <b>David Richter</b> Freie Universität Berlin (DE)	11:15-12:45	<b>Summer School participants</b> Research projects presentation	11:45-12:45	Til death (and beyond): Using genotype to identify reciprocal spousal effects on depression during marriage and widowhood among older U.S. adults <b>Dalton Conley</b> Princeton University (US)	11:45-12:45	Integrating the social and biological hallmarks of ageing <b>Cathal McCrory</b> Trinity College Dublin (IE)
13:00-14:30	<i>Lunch break</i>	13:00-14:30	<i>Lunch break</i>	13:00-14:30	<i>Lunch break</i>	13:00-14:30	<i>Lunch break</i>	13:00-14:30	<i>Lunch break</i>
14:30-16:30	<b>Gateway to Global Aging Data</b> Rinaldo Naci Hands-on session	14:30-16:30	<b>Harmonized data on ageing: applications using SHARE</b> Nancy Zambon Hands-on session	14:30-16:30	<b>Introduction to SHARELIFE</b> Stefano Castaldo Hands-on session	14:30-15:30	Biological ageing in epidemiology <b>Oliver Robinson</b> Imperial College London (UK)	14:30-15:30	The biology of aging: mechanisms and opportunities <b>Fabrizio d'Adda di Fagnana</b> IFOM ETS-The AIRC Institute of Molecular Oncology (IT)
								15:30-16:00	<i>Closing remarks</i>
		19:30	<i>Social Dinner</i>			19:30	<i>Workshop Dinner (faculty only)</i>
